THERE'S NO PLACE NO PLACE

LIKE

California High School is a unique institution, similar to no other. Its own special qualities allow it to remain aloof among the turmoil of district cutbacks and declining enrollment. One cannot cutback on the individuality of Calhi.

Calhi's character was displayed throughout the year in a number of different ways. The Calhi quality of "hanging tough" was displayed by the Varsity football team, as they fought hard to beat a tough La Serna team and upset the Lancer homecoming.

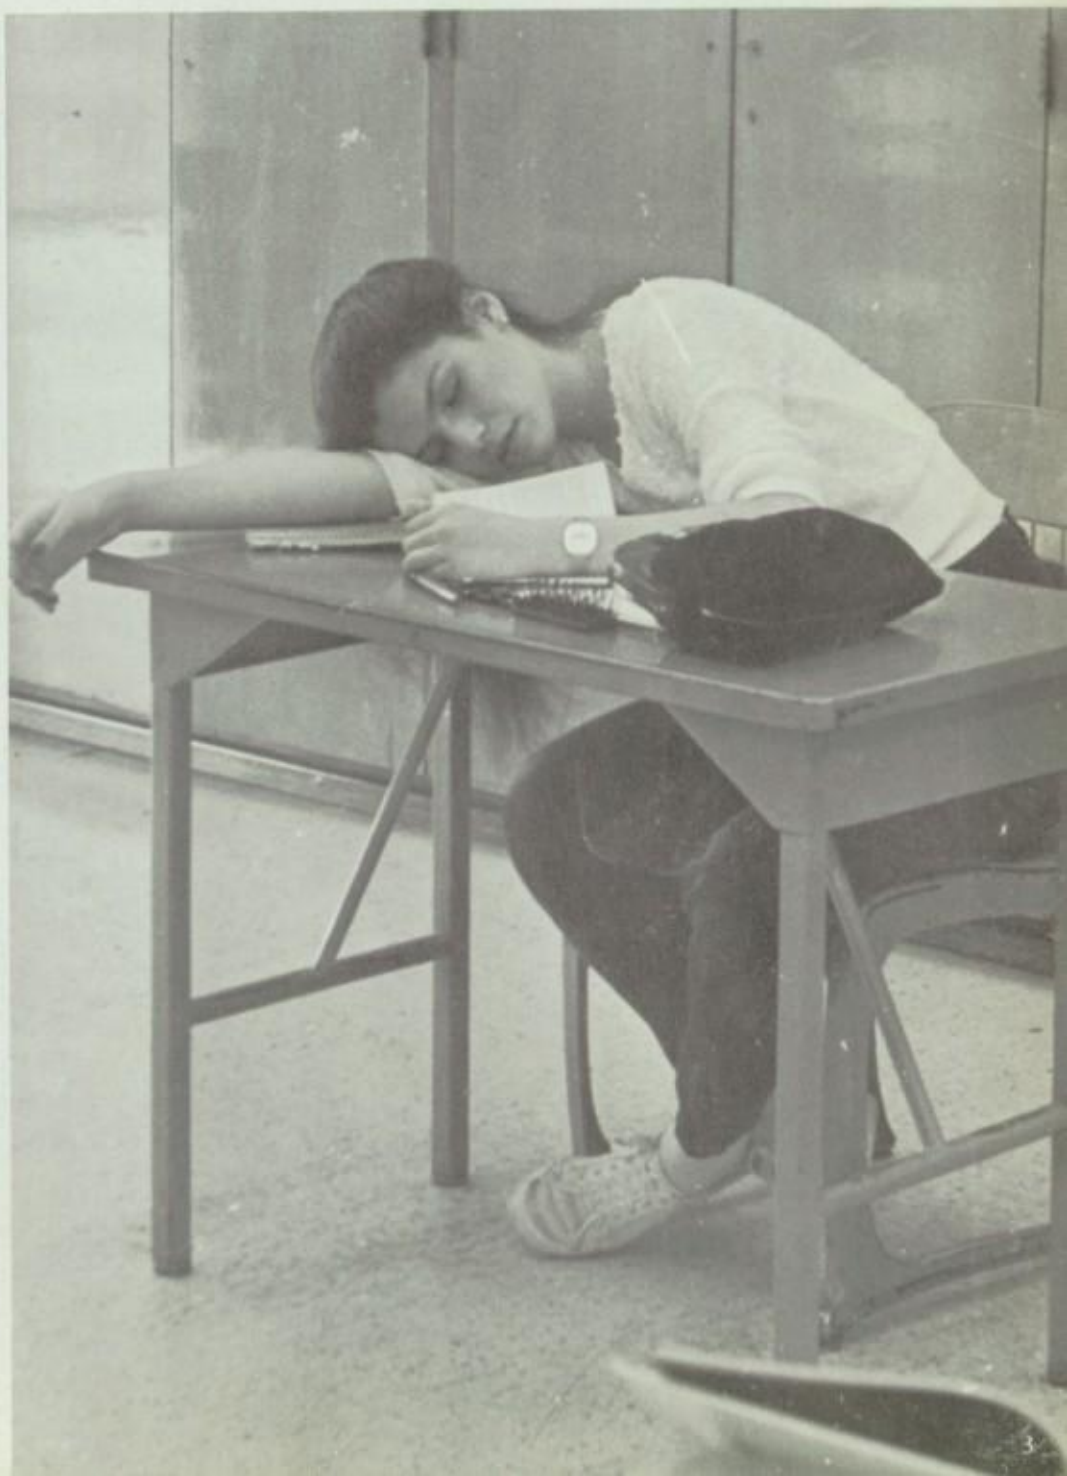
Calhi crowds, particularly the basketball "Loud Crowd" were known district wide as spirit instigators and opponent rattlers. School Spirit appeared to be on a favorable uprise.

Pawing his way up the Calhi ladder of prestige was Bowser the school socialite. Bowser was perhaps the only district canine to attend school regularily and be a faithful sport's fan.

The positive outlook students and teachers portray while molding the character that comprises Calhi are what holds a school together. Graduating seniors who look back on this high school year will say - **There is no place like California!**

CALIFORNIA!!!

LIKE CALIFORNIA!!!



Mrs. Eleanor Horner came to Calhi in 1958. In the beginning she worked as a secretary in the Guidance Office. In 1963 she returned to college to receive her teaching credentials.

Mrs. Horner taught many subjects. She taught English, Reading Improvement, and P.E. Mrs. Horner along with her good friend, Mrs. Pat Hodges, once taught a girl's P.E. class in belly dancing.

Mrs. Horner was an active woman involved in many activities. She enjoyed camping, traveling, and yoga. Last year Mrs. Horner died doing what she enjoyed most — living. Calhi faculty and students will remember her always as a woman who was an outstanding teacher and who enjoyed life.

IN MEMORIAM

BY GEORGE, THEY'VE GOT IT!

George Angelo has spent more than two decades at Calhi, and in those years has become a part of a tradition. Literally thousands of boys have benefitted from his abilities, his help, and especially from his concern for them as individuals. No one in the history of California High has done more to make the four years the students spend here more productive and meaningful than has George Angelo, and there are few among the graduates of Calhi who will not remember him long after most of the rest of us are forgotten. All of us- staff and students alike- owe this man far more than can be expressed in words written here, so perhaps, for all of us, simply the following:

Thank you George, for everything.

Robert D. Cooke
Assistant Principal; Business and Activities

Meet Mr. George Angelo up close and personal.

Have you ever had a need for help with your everyday difficulties, those everyday problems that seem so important and no one is there to help you? It takes a very special person to overcome those problems, be they large or small.

For over twenty-one years Mr. Angelo has fulfilled those needs for countless students and faculty with hard work and dedication. There is no substitute for experience and Calhi wants to express our deepest appreciation to you. We all hope you will continue to fill those needs for many more years.

George Dickison
Plant Foreman

After George Angelo graduated from Whittier High School, he served in the United States Army in Europe during World War II, from 1941 to 1945. Upon his return, he began a career as a brick contractor. In 1958, George was employed by the Whittier Union High School District at Sierra High. In 1959, he transferred to Calhi to serve as the Boys' Locker Room Attendant. George and his wife Frances have two children; Patricia and George John. George's favorite hobby is something we all know — an interest in sports.

Mr. George Dickison was born and raised in Lowell, Massachusetts. Expressing his loyalty toward the system of education, George worked for the Westford School District in Westford, Massachusetts. George then moved to California with his wife Evelyn and their daughters Nancy, Debra, and Judy. He was employed by the Whittier Union High School District in March of 1976. In 1978, George Dickison transferred from Sierra to Calhi to take the position of Plant Foreman. George's main interest outside of school is in race cars.

This is my friend, Mr. George Dickison.

In the few years I have known George Dickison, I have found him to be a terrific person and a very good friend. His personality and attitude remain the same whether he is working hard to keep the school operating or relaxing with friends. George is very dependable; he is always around when others are in need of his help. He is well-liked by all on this campus. Those who know George well, know that he is not just another Plant Foreman, but a true blue pal.

Have a nice day George!

George Angelo
Boys' Locker Room Attendant

GEORGES' DEDICATION

As everyone knows, the character of a high school is determined by the people who are a part of it. Students come and go, but year after year it is the staff who put forth their efforts to make their school number one. These efforts do not go unrewarded. A special way of giving recognition is through the dedication of a yearbook.

Each year, a member of the staff is honored for the outstanding contributions he makes for the benefit of the school. However, an occasion may arise when a single dedication is not sufficient. This year the Talon staff felt that there were two persons equally deserving of this honor. Therefore, a joint dedication was deemed necessary. The two men chosen exemplify the true Calhi spirit. They both are essential to the running of the campus; they are the "undercover" men of Calhi. They do a thousand thankless jobs; but at this point we wish to express our deepest appreciation and gratitude to . . . **Mr. George Angelo** and **Mr. George Dickison.**

Congratulations to both of you! The Talon Staff is proud to present you with 1981 dedication.

Industrious, energetic, committed. Mix liberally with patience, understanding, and concern, and you just might come up with a George Dickison. Throw in a chuckle, a grin, add a man in-a-hurry, and your picture is more complete.

Need Help? George will be right there.

Have an emergency? George will work it out.

California's George Dickison: Plant Foreman and man for the job. ***Any*** *job!*

Robert D. Cooke
Assistant Principal; Business and Activities

Lisa,
Schools almost out and I won't get to see you any more, so I want you to know you're a real sweet pretty friend and next year don't forget about me! I want you to have a great summer and I wish you all the best, see you next year. Friends always

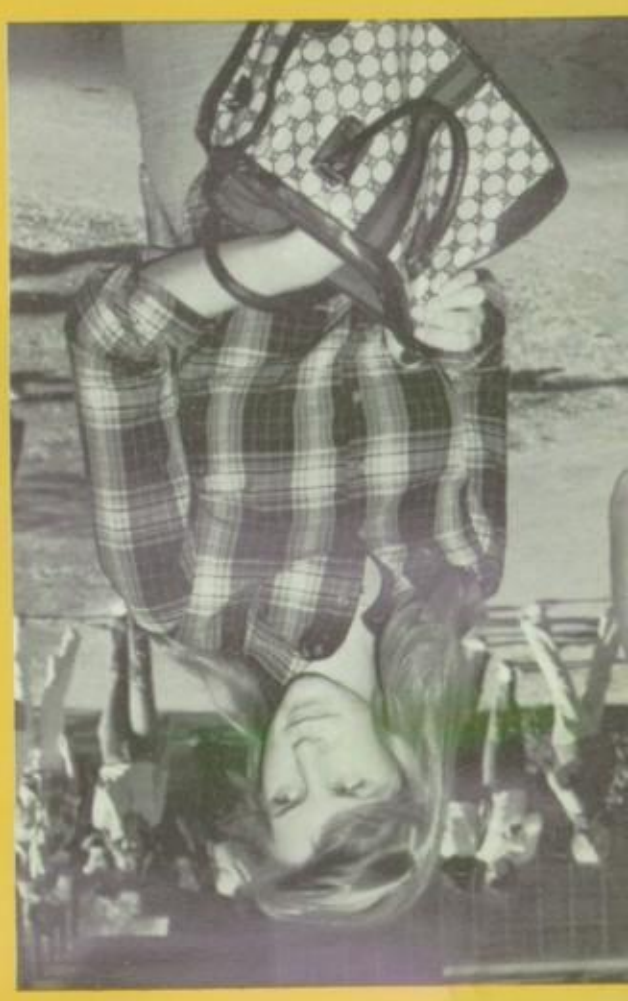
TO
LISA, A
Real nice girl
I met a few years
ago. I'm real happy
I got to know you better
I hope I continue to see
you during the summer and
the on coming years.
P.S. cool it in the summer, remember
your a married woman.
Love always
Patricia Lafarga



ASB PRESIDENT

As this year comes to an end, I find that it means more to me now than ever before. I will leave this high school and yet, it will never leave me because it has touched me with some great memories.

My high school life will be remembered in three different parts. The main part would have to be my education. I am thankful for the opportunity to learn in a system that will let me make my own choices and voice my own personal ideals. I am sorry that I did not use that chance as I could have to learn and discover the many great areas of knowledge that are there for the taking.

Another side of high school that was a big part was athletics. The highs and lows on the field of play will bring the greatest amount of memories for me. The camaraderie that brings a team together will be remembered long after the season has been completed. The chance to participate in athletics makes me want to thank God for the good health He has blessed me with. So many times we take it for granted this ability to just walk or think with a sound mind.

The final part of my high school life would be that which had nothing to do with school and yet would not be possible without it. It is those activities outside school with the friends that I have made in school.

The friends that I have made while at Calhi have brought me the best of times. The teachers, the coaches, and the student body have made me happy to be a part of this school. I am thankful that I had the opportunity to share in the many different sides of Calhi.

Sincerely,

SUPER SENIORS '81

Of my four years at Cal Hi, none compare with my senior year. I acquired a lot of responsibility and also had a lot of fun. Of all the tests, dances, and parties, the ones I remember, I had with great enjoyment. We won our league championships in many athletic events, and we have shown spirit all through the year. Now as my senior year ends, I can look back at the excellence of the class of 1981.

I would like to thank all my friends, parents, class council members, and faculty advisors for their willing help. I also thank the students who gave me a chance to represent them in this, our final senior year. I would also like to wish the class of 1981 the greatest of success, and happiness the world has to offer.

To the annoying Junior class, I leave my extraordinary ability and natural aptitude for planning activities.

Best wishes,

Keith Shellhammer

As Junior Class President, I learned definitions:

I Time — However cut and divided, there was never enough,
and it was always running out.

II Authority and Responsibility — Authority: The power
to say, "You do it!" and then make it stick. Responsibility: To answer the voice above inquiring, "You've done what?"

III Compromise — The ability to stand on my hands, my head,
and my feet all at the same time.

IV Leadership — The willingness to listen to all, and the will to act alone.

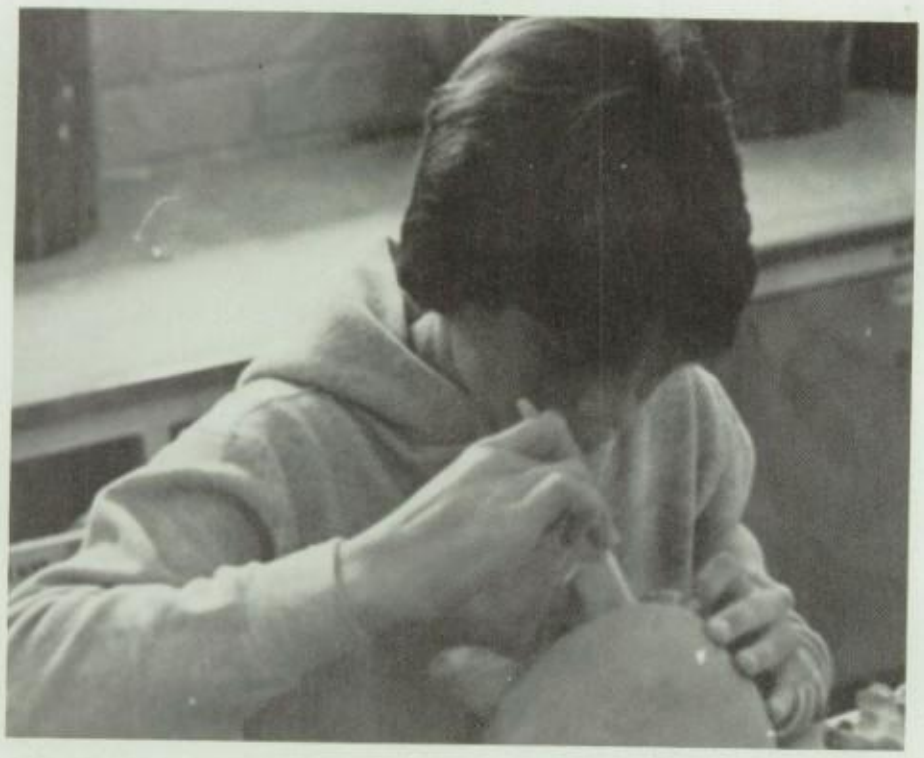
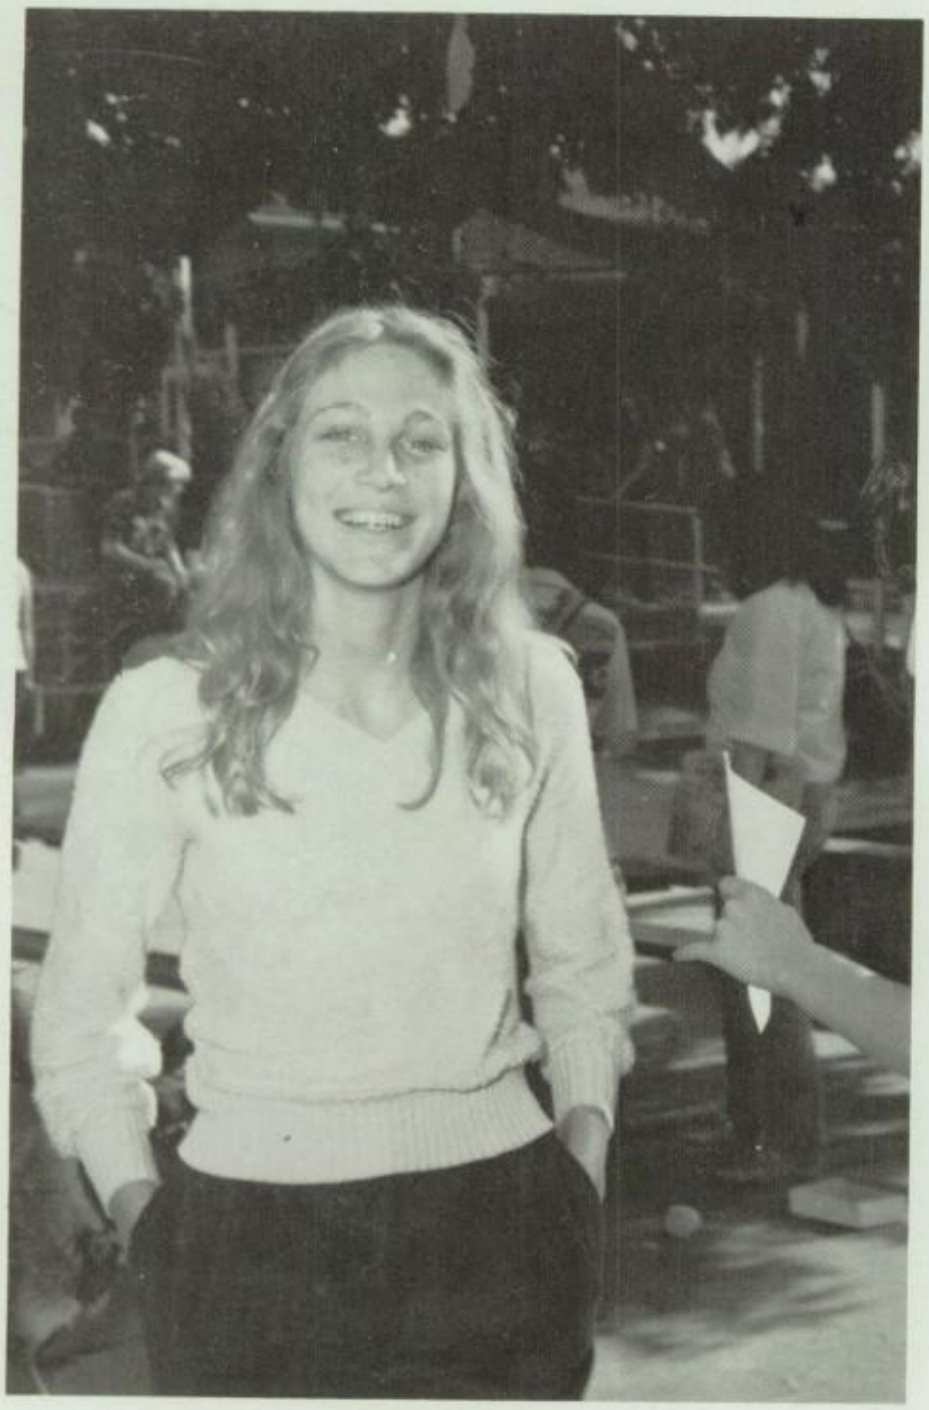
SOPHOMORE SPIRIT





CLASS OF 1983

FRESHMEN CLASS OFFICERS

We came to this school like any other Freshmen; bewildered, maybe even a little scared, and some of us were totally lost. But we adjusted. We thought that we would never make it alone. We were right. We had to work together as one. We did, and we each began to get into our own routines.

We figured out from which teachers we could expect a surprise quiz. We also found out which teachers had a sense of humor and which just tried to be funny.

We adapted to the sub-culture of Condor Country, and learned how to face the daily crises that everyone of us experienced.

We all had our "off" days, but overall our first year at Cal Hi has been an enjoyable one. We made new friends and kept our old friends, and next year we will be back for more, because we are the Class of '84!

Lisa,

Glad we could be friends. Hope to see you next year and the years to come. You're really sweet and pretty so don't change. Have a bitchen summer with Roland. Good luck next year. Maybe I'll get lucky and see you this summer, like at the beach. It's been great knowing you. I don't regret being friends with you.

I REMEMBER MAMA NOVEMBER 20, 21 & 22, 1980

I Remember Mama is a comedy written in 1944 by Joan Van Druten, an adaption of Kathryn Forbe's series of sketches titled, **Mama's Bank Account.** The play depicts the life of a Norwegian-American family living in San Francisco at the turn of the century in a sequence of everyday episodes, which are held together by Mama, the pivotal character of the play, as well as of the family. Mama is a woman of wonderful good sense and unending devotion. The story is told in retrospect by Kathrin, the eldest daughter. Mama, wife of a modest carpenter and mother of four children, always finds a way to solve the family's many problems. The story illustrates how families can overcome anything through unity and love.

RUNAWAYS

The California High School Drama Department was the first school to present Elizabeth Swados' **Runaways.** There was no plot or storyline in Runaways. It was a collage of monologues and songs about hopes, dreams, fears, frustrations, lonely times, humor, and perhaps most of all, anger of young people who were estranged from their families and were searching for themselves. Although the words and music of Runaways express mainly the pain of children, when performed by a special cast, Runaways demonstrates the potential of human spirit to triumph over their problems.

Many seniors who have shown exceptional ability in the areas of scholarship, leadership, and service received awards from various businesses and community organizations. Unfortunately, due to publication deadlines, only those seniors who had earned awards prior to the end of March could be recognized in this book. Seniors receiving awards after that time received recognition through the school newspaper and at the Awards Recognition Night which was held in June.

CONDORS IN FOCUS

TALON STAFF 1981

As this year ends, I find myself thinking about the many trials of being the Editor-in-chief of the yearbook: We had a new contract with a different yearbook company, which used processes different from those of the previous company. The few returning members, the adviser, and I had to learn these processes and teach them to the new members of the staff. It was difficult, and there were times when it seemed impossible that we would meet our deadlines. The staff persevered, though, and produced a yearbook of which we can all be proud.

This has been a test year — a year of new graduation requirements, of higher prices and a new company, and no more soft drinks in the snack shack. I can't say that it has all been fun, but the staff managed anyway. I would like to thank those people who supported me, without whom I would not have been able to make it through this trying time. It has been a great experience, and I hope that in the future more students will want to get involved in producing the yearbook. To next year's staff I leave my patience, which they will need. Good luck to everyone in the future.

Sincerely,

Donna Golem

CALIFORNIAN STAFF 1981

Students have a right to express themselves- but where? Their main voice is the school newspaper. **The Californian** has tried to be that voice- loud and clear. We, the staff, feel we have done the job this year- not as often as we would have wished, but with style.

Money was limited, the staff was small, but each issue of the paper was one of which we were proud. We appreciate the support we have had from the many who have taken time to read us (and do the word searches, etc.). Most of all, we thank the faculty and students who have shared their compliments and criticism with us. It helped us feel our voice was heard.

Sincerely,

Mary Hennessy

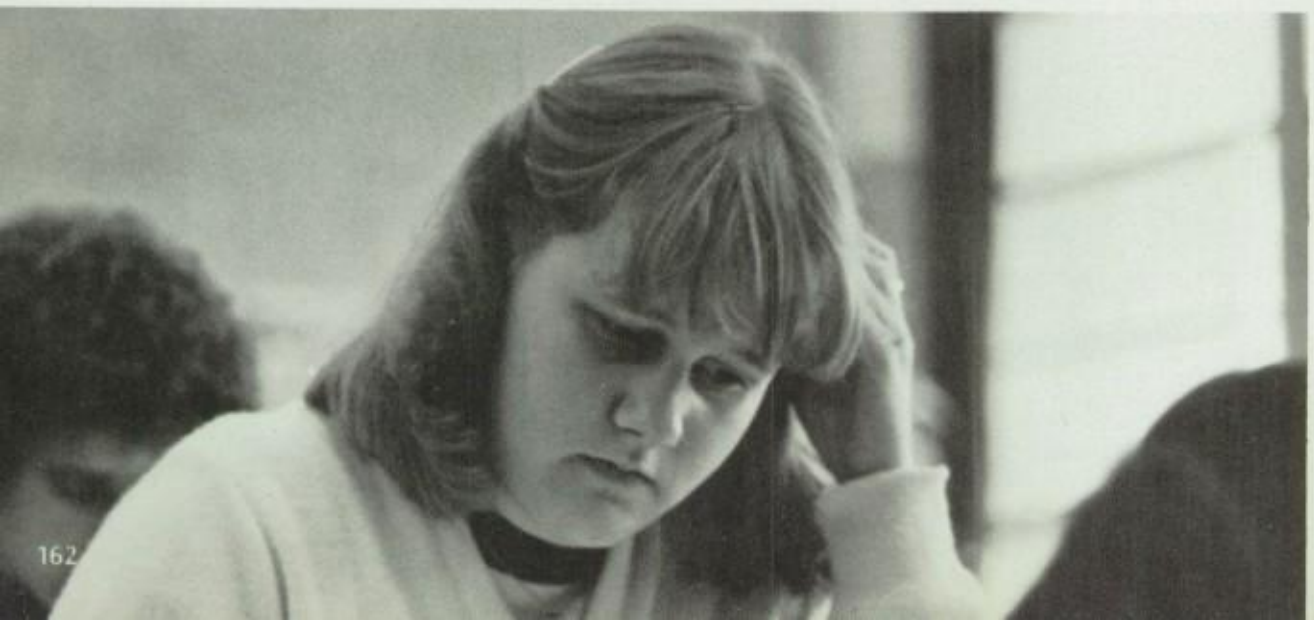
FOREIGN EXCHANGE STUDENTS

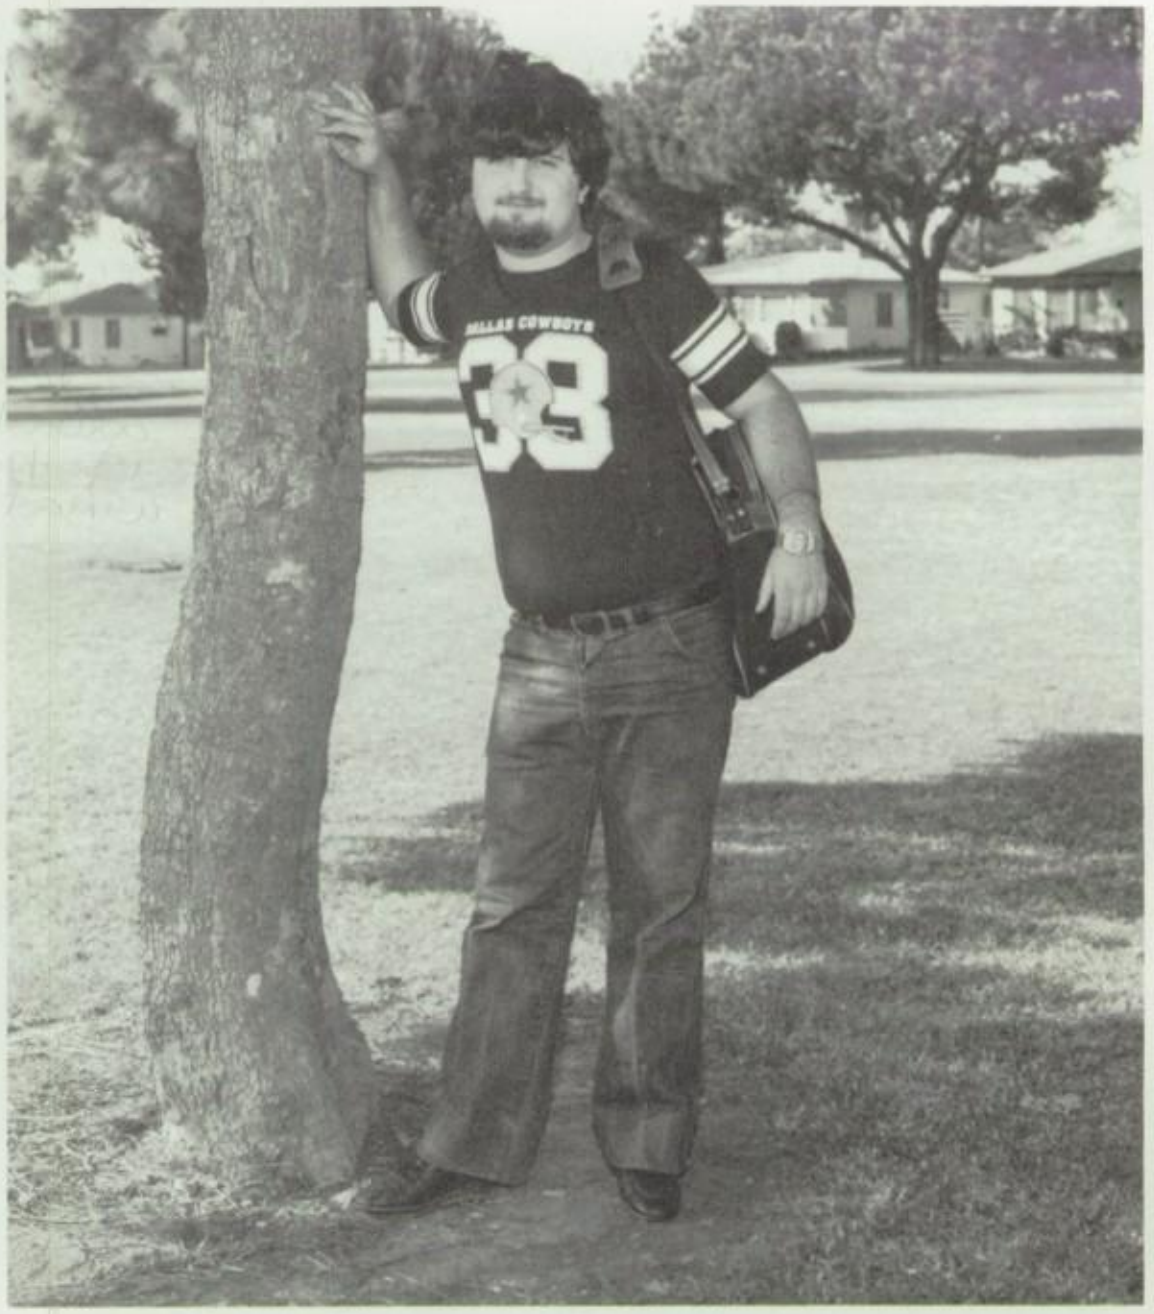
Minna Heiskanen

I am from Finland. The city is called Espoo. I came here because I wanted to experience a different culture and everything that belongs to it. And that I am doing. Finland is Nordic country so I am not used to this hot weather, but I like it. School and language are much different, but I like them too.

I am enjoying my stay here, and I have to thank all the nice people around me and my host family, the Shermans.

Minna Heiskanen





Efstathios Stromatias

I am from Athens, Greece, a city with 3,000,000 people. My city is the capital of Greece, and it has 4,000,000 visitors every year from all parts of the world. We use to live, my family and me, about 25 minutes from Athens center.

Life in Athens is similar to New York City. In my family, my brother is a 22 year old officer in the Greek army, my father, a Chief Account Manager, and my mother and me.

Our high school in Greece is smaller than Calhi. The system there is not so good. The students are frightened to talk to the teachers, and last year I had 14 regular classes. Calhi has better teachers and is much bigger than mine. I like the school because they have a lot of classes, I can speak freely, and the students are good guys.

Congratulations to the Annual Staff and to the Class of 1981. You should feel proud of reaching this special milestone in your lives. Speaking for the faculty, we are proud of your many accomplishments and take pride in the fact that we have had an opportunity to contribute to your preparation for the future. We wish you every success, and to remind you of the words of Longfellow,

The heights by great men reached and kept
Were not attained by sudden flight,
But they while their companions slept
Were toiling upward in the night.

Good Luck!
